Healing a Father's Heart

Post-Abortion Bible Study For Men

In this insightful bible study the focal point shifts to the post-abortive father, who may feel the same guilt, shame, and grief as the mother. These fathers are “silent wounded warriors” who often have an unexplainable need to defend their masculinity causing confusion and strife in their relationships.

This 10-week study offers practical information to help hurting men work through the stages of post-abortion syndrome and find comfort in the reassurance of God's love and acceptance. Healing a Father's Heart provides a pathway to freedom from the emotions that impact their relationships with others and with God.
